Commissioner Jane Henney Foods and Drug Administration Docket # OOP-1211CP1 Dockets Management Branch 5630 Fishers Lane Rockville, MD 20852

2649 '02 FEB 13 A11:42

Dear Commissioner Henney

This letter is to voice concern over genetically engineered food. We ask you to fight and keep all genetically engineered food and crops off the market and out of our food supply. There has been no long term testing of these crops. The Starlink corn episode points to some of the future dangers that may lie ahead. Japan and other European Nations want nothing to do with genetically engineered foods. The United Sates should follow their lead.

My wife and I have studied this issue and read both sides. Our minds are made up. As consumers we do not wish to purchase and eat genetically engineered food. At very least, we want to see food labeled so that we can make this choice.

Robba Drambe El. Grey

Thanks you
